

Live Within Faith

Faith is a space in which God and man exist in united harmony of creator and creation. Faith has no physical address; its not a state of being; its not bound to time, laws or anything of this world. The only limits of faith that exist are the ones that are created within our hearts. In faith is found all hope and dreaming, all strength and proof of the existence of love and that of God.

Many would say that faith makes us weak; that its only for the simple of mind; that it leads us astray from the 'true' realities of this world. But if you were to take a look at someone who has strong faith in God, you would see that it takes more courage, sacrifice and devotion to have faith, than those who claim it to be weak. The very existence of faith takes faith to believe it to be possible.

“...for we walk by faith, not by sight.” 2 Corinthians 5:7

So what does it mean to live within your faith? Faith is the relationship of love that exists between God and ourselves, it is nourished and deepened by the Spirit, and it exists beyond the confines of the world we see. To live within the reality of faith, is to live beyond the world around us. To be united with God is a fullness of being that can only be obtained in the reality of faith. To walk with God in all matters, encounters and situations of life, is to walk in faith. Allowing God to be apart of our lives and longing to grow in unity with Him...that is faith.

“The Lord is searching for faith in our hearts - not necessarily a perfect faith, but a sincere, genuine faith.” Pope Francis

It is said that with faith all things are possible, because faith is not bound to the laws of this world; it is beyond our capacity to understand or define. In the devotion to exist within the fullness of faith, all wonder and glory of God can be revealed and expressed in the space in which faith resides. It does not take great faith to know God, it is in any faith that God reveals Himself, and through His Spirit, God strengthens our faith.

*Faith is the fullest of what is unknown ,
the mysteries we cannot explain. Faith
is the consolation to our suffering, the
reason for our hope.*

***O Father divine,
Pour forth Your Spirit into my heart,
that my faith in You might flourish
beyond my doubts.
Grant unto me new depths into Your fullness,
and create in me a desire to grow
closer to You, living in faith unbroken.
In faith I pray AMEN***
