

## Ascend As We Descend

**“He must increase, but I must decrease.” John 3:30**

How do we become less, so that the Lord may become more? If we desire that God should be a greater part of our lives, we must make room for Him, by decreasing what is unnecessary. In our world today, we constantly try to find more time and more space in our lives for everything else, except God.

God longs to reveal to us new depths of our souls. He seeks to take us to new heights and soar beyond our wildest dreams. What we know to be “real” and “possible” in this world, must pale in comparison to what the creator of the universe, has in store for us.

God longs for us to ascend to new and colossal heights, by taking us deeper and deeper into the unknown recesses of our soul. The more we decrease for God, the more we will increase in Him and He help us to ascend to the true depths of reality.

**“God is an unutterable sigh, planted in the depths  
of the soul.” Jean Paul**

A walk through creation in the openness of one’s heart, caresses the soul with such sweet delight. A kiss from God, like the sunshine upon the morning dew. Drawing you deeper and deeper into the endless wonders dwelling within the unexplored spaces of our created being.

*Father of all creation, hear this my prayer...  
Reveal to me what I need to change in my life.  
What can I do to create more space for You?  
So that I may become more one with You as You are with me?  
Show me the way into my soul...  
Deep into the places that I have never been.  
I pray that with each passing day, I will continue to ascend  
deeper into the endless reality of You. AMEN*
