

## Rhythm Of Life

Music is everywhere it's all around us, but the question is, do we really hear it?...  
Music is not music unless it comes from the very depths of our souls.

**“So only some of us can hear it?...only some of us are listening?” August Rush 2007**

Look at all that God has created and the incredible way that it all fits together in great symphonic harmony. Look at the way the mountain feeds the river with the melt of snow and the sun that warms the newly born lamb. The bees bring new life to every flower, the wind sings the song of change and the rain washes away all despair and instills great hope for tomorrow. The changing leaves and the snows come and go, and expose the mystery and awe of God's gentle power, while all the creatures that roam the earth give light to his inspiring style and creativity.

**“The order and harmony of the created world results from the diversity of beings and from the relationships which exist among them...The beauty of creation reflects the infinite beauty of the Creator and ought to inspire the respect and submission of man's intellect and will.” CCC 341**

Look into your soul and you will see a fire that burns with fervor and longs to shed its light on the world. Every soul has its own beat that longs to unite with God's great symphony of creation. Though every soul may have a different beat, they all join together in perfect harmony that is the rhythm of life!

**“Let us sing joyfully to the Lord” Psalm 95:1**

Our lives are a song that we sing each and every day. The sound that they make depends on us. They can be comforting in times of hardship and joyful in times of happiness. The music comes not so much from the words we say or our daily actions, but rather from the meaning behind what we say and what we do. You can do your good deed for the day, but if it's anything but a joyful desire, then the tune will be nothing less than sour.

**“Jesus sings the song of God...the song is the Word and the Holy Spirit is the melody.” Fr. Larry**

The song we sing is not always on key, and like our lives may need to be tuned up every now and then. But when we sing in harmony with God's perfect rhythm, the music of our soul becomes the only sound we hear, a sound so far beyond all words and comprehension. It is a sound so unique and yet so perfectly does it harmonize with God's great symphony of life!

***Creator of the stars and sea, Creator of the seasons and of me.***

***Open my heart to sing the song of my soul, the song that you composed for all the world to know. Teach me love from the depths of my existence, for there is born the song of love, of which you breathed all living into existence. May my life be a song and may that song be of love and may that love be known by all.***

**Amen**

**“The music is all around us...all you have to do is listen.” August Rush 2007**
